

## Objective

To secure a position as a Web Developer in a fast paced, progressive company that will provide a place for me to contribute my knowledge and work to develop myself and my workplace.

## Skills

I am a Web Developer with knowledge in HTML, CSS/SASS, PHP, JavaScript (and assorted JS frameworks like React and Vue). Similarly for PHP I've worked on a large number of Magento 1 & 2 eCommerce sites professionally and worked frequently with the Git version control system for collaborative development work on large projects. On the backend I also know and regularly use MySQL in conjunction with Node/PHP to create robust and flexible APIs. In addition, I am also proficient with the Adobe Creative Cloud design suite (read Photoshop, Illustrator, and After Effects to name a few) for UX/UI design purposes. My skills are kept current with personal projects that drive my ambition to learn new programming languages, the breadth of which can be seen on my portfolio.

## Portfolio

The project I am currently working on that best show my skills can be seen at: [colegeerts.com](http://colegeerts.com). Feel free to contact me with questions about my work or even the strategies I used to complete projects both professional and personal in the past.

## Work

November 2018 - August 2019

Northern Commerce, London Ontario - **Junior Web Developer**

- Team member of a sprint-based development team on a large number of eCommerce sites
- Planned and executed development tasks for large clients regularly
- Programmed, styled, and tested high-traffic consumer sites in rapid development cycles

April 2016 - October 2018

- Health and Safety committee member/crew Health and Safety consultant
- Cashier/Cash handler and Customer Experience Leader
- Day and overnight crew member

August 2015 - April 2016

Dollarama, Ingersoll Ontario - **Lead Cashier**

## Education

September 2019 - Present

Fanshawe College, London Ontario - **Interactive Media Specialist**

I am currently enrolled in the Interactive Media Specialist program at Fanshawe College after taking time to obtain industry experience. Throughout this program I hope to strengthen my abilities as a developer and advance my previous diploma.

September 2016 - May 2018

Fanshawe College, London Ontario - **Interactive Media Design and Development**

I have completed a diploma in the Interactive Media Design and Development program at Fanshawe College, where I learned my modern web development skills as well as my aforementioned design skills.

September 2011 - May 2016

Ingersoll District Collegiate Institute (IDCI), Ingersoll Ontario - **Secondary School Studies**

Attended IDCI throughout secondary schooling, graduating with honours. Took a fifth year to study subjects more related to my post-secondary studies, like computer science and to take part in the gifted studies program.
